

Baseline Corporation acquires Tri-County Surveying

April 21, 2022

Baseline Corporation (Baseline) is pleased to announce its recent acquisition of Tri-County Surveying (Tri-County), a land surveying company headquartered in Seguin, Texas.

Tri-County was established in Seguin by Richard and Gloria Kinz in 1996. Surveying services were provided in Guadalupe County and the surrounding counties of Wilson, Comal, and Gonzales for over 26 years. Tri-County performs boundary surveys, topographic surveys, development platting, and FEMA flood services. Now a part of the Baseline, the Seguin office will provide expanded resources and technology to provide professional surveying services to the region.

Gloria Kinz will manage the Seguin office under the direction of Edward Prince, RPLS, and Henry Kuehlem, RPLS, who are located in Baseline's San Antonio office.

"We are excited about our recent acquisition of Tri-County and our opportunity to provide available resources to support their clients," said Baseline Corporation President Steve Williams, RPLS. "Baseline Corporation's reputation, coupled with the reputation and robust history of Tri-County, creates a combined depth of expertise and experience that will be noteworthy to our clients and associates."
