

CEDARVILLE Engineering Group has acquired Berner Construction

August 14, 2020

CEDARVILLE Engineering Group, LLC (CEG) is excited to announce the acquisition of Berner Construction, Inc. (Berner) on July 1, 2020. CEG has long provided Construction Management and Inspections services for federal, state and local infrastructure projects. Berner has been providing a full range of construction and environmental-related services to both private and public sector clients for over 15 years. The experienced Berner team has performed environmental services at marine facilities and airports; installed utility and security systems at U.S. ports and border crossings; and moved millions of cubic yards of earth in the reclamation of abandoned strip mines and construction of active and passive water treatment systems.
