

Civil Surveyors, Inc. recently acquired D & M Surveyors, P.C.

October 7, 2021

Civil Surveyors, Inc. recently acquired D & M Surveyors, P.C. and we are currently also doing business as D & M Surveyors. D & M was founded in Tappahannock, Virginia 40 years ago. With the Leadership of Peel Dillard, LS and Jerry Marion, LS became well known and respected for their client care and service in the Rappahannock River region and throughout Virginia.

Civil Surveyors, Inc founders are Lee O. White, LS President and Lucas O. Koloo, SIT, MBA, Vice President. Our leadership first started working together some 20 years ago with Lucas migrating to Virginia from Kenya, Africa and with Lee who had previously migrated here from Alabama.

We incorporated the Leopard in our company logo/symbol because Lee was intrigued that Lucas as a young surveyor in Kenya had "interactions" with these "African Big Cats". Leopards while beautiful, are powerful and versatile predators that represent how we attack our work.

Our value statement "elevating client experience" represents our firm's belief that our clients deserve service with their survey. We appreciate that clients can hire anyone to do their surveying but the experience is what they will remember.
