

CMT Engineering Laboratories announces acquisition of Paradigm Consultants, Inc.

January 05, 2022

CMT Engineering Laboratories has acquired Paradigm Consultants, Inc. (“Paradigm”). Based in Houston, Texas, Paradigm is a leading provider of construction material testing, special inspection, geotechnical engineering services, and litigation including forensic services in the South Texas area.

CMT and Paradigm share similar cultures and service offerings in overlapping geographies. CMT recently expanded into Texas organically and the partnership with Paradigm significantly bolsters the Company’s presence in the state with the addition of 40 - 50 personnel. CMT will provide Paradigm with additional resources and infrastructure to assist in serving Paradigm’s high-quality customer base.

Paradigm is led by Woody Vogt P.E. and Ray Meyer P.E., who has retained an equity interest in the Company and will remain in their current roles at Paradigm.

“We are excited to partner with Woody and Ray and the rest of the Paradigm team,” said Doug Watson, President of CMT. “Paradigm shares our customer-centric ethos, and we look forward to building on Paradigm’s success and strong reputation in the South Texas area.”

Paradigm is CMT’s third acquisition since inception and the first since partnering with CAI in September 2020. The acquisition of Paradigm aligns with the Company’s long-term strategy of expanding its service offering and geographical footprint as a leading provider of technical services.
