

## Colliers Engineering & Design Partners with Bergmann

*September 21, 2021*

Colliers Engineering & Design, a national multi-discipline engineering design firm, is pleased to announce it has entered into an agreement to partner with Bergmann, of Rochester, New York. Bergmann is an award-winning architectural and engineering firm that offers full service building, planning and design capabilities.

“Bergmann’s geographic reach complements our existing national footprint and will help us scale-up our existing services,” explained Kevin L. Haney, PE, President and CEO of Colliers Engineering & Design. “They will also provide us with several new services and building design capabilities that can be leveraged across our entire client network, providing large project and design-build experience.”

“This unique partnership supports our focus on continued growth for our clients, partners and employees,” stated Pietro V. Giovenco, PE, President and CEO of Bergmann. “Together with Colliers Engineering & Design, we bring to the market a depth of expertise and portfolio of capabilities that will serve increased demand across the nation. All with a shared focus on excellence and the highest quality of service.”

The addition of Bergmann’s services to Colliers Engineering & Design’s existing service lines promises to create a dynamic and positive environment, positioning both entities to better serve their clients with more comprehensive services and continue growth opportunities within the A/E industry. This agreement maintains the firm’s senior leadership as significant shareholders of the business under Colliers Engineering & Design’s unique partnership model and is expected to close in the fourth quarter of 2021.
