

DCCM acquires Coastland Civil Engineering

December 03, 2021

DCCM, a national provider of design, consulting, and program & construction management services based in Houston, Texas, is pleased to announce the acquisition of Coastland Civil Engineering (Coastland).

Based in northern California, Coastland is known for providing civil engineering, construction management, and building department services to public agencies throughout the regions they serve. For 30 years, their projects have encompassed a wide variety of transportation, water, wastewater, drainage, financing assistance, and contract engineering for cities, counties, special districts, and other governmental agencies as well as for private clients and universities. In acquiring Coastland, DCCM is partnering with industry veteran John Wanger, PE, who will continue in his role as CEO of Coastland.

“We’re thrilled to welcome Coastland into the DCCM family,” commented James F. (Jim) Thompson, PE, DBIA, CEO of DCCM. “With a shared vision of strategic growth, a commitment to developing and investing in staff, and an unrelenting focus on client service, this partnership provides both companies with a resilient and diversified platform, from which to navigate our ever-changing markets moving forward in our now expanded region serving the West Coast.”

“With DCCM’s investment in our clients and our staff in the northern California region, this partnership is about growth and bringing new possibilities to our team and the clients we serve,” said John Wanger. “As DCCM’s foundation in the West, we will continue to be that local firm our clients value but now with a more diverse set of capabilities, national support, and increased resources.”
