

## **E4H Announces the Acquisition of Utah-based Dixon + Associates**

*September 1, 2021*

E4H Environments for Health Architecture, the nation's largest architectural design and planning firm focused exclusively on healthcare and the health science + technology industries, has announced the acquisition of Dixon + Associates. Based in Salt Lake City, Dixon + Associates is a niche architectural design firm focused on the healthcare and medical design industry. "We are extremely excited about expanding our physical footprint and enhancing our services to the Western United States in partnership with the talented Dixon + Associates design firm," remarked Jim Johnson, E4H Managing Partner, "the addition of Dixon is integral to our strategies of geographic growth and continuous cultivation of our dedicated expertise."

E4H has over 200 architects and planners across the United States and has completed more than 9,000 healthcare and projects over the past four decades. The firm's portfolio includes over \$6 Billion in projects, encompassing community hospitals, academic medical centers, life science laboratories, R&D spaces, children's hospitals, mental health facilities, ambulatory care centers, rehabilitation facilities, assisted living, and medical office buildings.

Founded in 1990, Dixon + Associates has a reputation as an innovative leader in healthcare design in the Salt Lake City area. The merger of E4H and Dixon + Associates establishes regional leadership to create synergy across a national base of clients and projects. "We have built a reputation in the Salt Lake City region over the last 30 years and are excited to expand our services across the broader Intermountain West as a part of the E4H team," says David Dixon, Founder of Dixon + Associates, "we have had a great working relationship with E4H serving clients together in the past and are now looking forward bringing E4H's broader capabilities to all our healthcare clients."
