

EIS Holdings Continues Market Expansion with Investment in Simpson Environmental Services

February 17, 2020

EIS Holdings (www.eis-holdings.com), a portfolio company of O2 Investment Partners (www.o2investment.com), today announced an investment in Florida-based Simpson Environmental Services (www.simpsonenv.com). Simpson Environmental is one of the largest, most trusted environmental remediation and abatement firms in the Southeast United States.

With the addition of Simpson, EIS Holdings is the third largest environmental remediation and abatement firm in the country with over 600 employees and 21 offices serving customers throughout the United States.

"We are very excited to partner with Tim Yaeger, Casey Mattox, and Shawn Brigham and have Simpson become a part of the EIS family," said Gary Caldwell, CEO of EIS Holdings. "Having this team on board significantly enhances our presence in the Southeast, and we're excited to help Simpson grow and better serve their clients."

Tim Yaeger, Co-President of Simpson Environmental, stated, "There is a lot of demand for our services in the Southeast, and with the support of EIS behind us, we feel great about what we can bring to our customers in the future."

Luke Plumpton of O2 Investment Partners commented, "As one of the premier environmental remediation firms in the Southeast, Simpson is a great addition to the EIS platform." He added, "Gary and the EIS leadership team have hit the ground running with Tim, Casey, and Shawn, and we're excited about the many growth opportunities that they are pursuing together."
