

PARTNERSHIP WITH A PURPOSE: EVSTUDIO ANNOUNCES MERGER WITH NEUDESIGN

August 17, 2021

The partnership of EVstudio and neUdesign, which will be operating under EVstudio, was built on synergistic company cultures and values, and the growing need for innovative, affordable, modular, and other construction services in the Western market. As a leading architecture firm based in Meridian, Idaho, neUdesign is home to architects, designers, drafters, and support staff who work on and manage projects across the United States and abroad. Their clients will also gain access to engineering and planning services through EVstudio's holistic, multi-disciplinary approach.

neUdesign is currently licensed in most states across the nation and in two provinces in Canada. They have completed projects in countries as far away as Tanzania and continue to grow every year. At neUdesign, the team draws inspiration from around the globe and brings that innovation into all of their work.

neUdesign specializes in a variety of process-driven services aimed at making projects effective, efficient and exciting. Expertise lies in the studio areas including Modular, Commercial, Residential, and Industrial. Regardless of project size, location, or budget, the newly combined team of EVstudio and neUdesign is excited to work together to accomplish your project goals.
