

January 11, 2022

At Green International Affiliates, Inc., we are pleased to announce that we have acquired Lumen Studio, an architectural lighting design firm based out of Massachusetts. Lumen Studio provides creative lighting solutions for both interior and exterior environments. They bring a unique artistic perspective to the lighting of streetscapes, bridges, transportation centers, academic buildings, and parks, among others, transforming these spaces into beautiful and welcoming destinations.

Joining us will be their two Principals, Lukas Sturm, IALD, ASLA, MIES, who has over 20 years of experience and Christina Andriole, Associate IALD, MIES, who has more than 15 years of experience. Their work has been recognized at the regional and, for Lukas, the international level.

We are excited to be able to offer these additional services as another means to provide full service engineering and design for our clients.
