# Jensen Hughes Acquires SAFire, a Leading Korean Fire Protection Engineering Firm, as the Enterprise Continues its Global Expansion

*January 7, 2020*

BALTIMORE, Jan. 7, 2020 /PRNewswire/ -- Jensen Hughes, a global leader in safety, security and risk-based engineering and consulting, announced today its acquisition of SAFire, a major fire protection engineering firm in Korea.

SAFire's acquisition by Jensen Hughes, a portfolio company of Gryphon Investors, expands Jensen Hughes' core fire engineering business in Korea and provides a platform to extend the reach of its fire protection engineering business across other Asia-Pacific markets. SAFire was founded in 2010 by CEO and President Seungmin (Simon) Park, a highly respected fire protection engineering expert in Korea. The firm's services include fire protection design, code consulting and performance-based design work supporting many of the world's largest Korean entities.

"We have been very impressed with the SAFire business, offerings and people," says Raj Arora, CEO, Jensen Hughes. "This team includes many experienced personnel, such as Simon Park, who is a well-known thought leader in the Korean fire protection engineering industry. SAFire has deeply entrenched relationships with large global Korean clients that will help the new combination accelerate growth in Korea and the global industrial sector."

"Joining Jensen Hughes is an honor, for all of us at SAFire – and a major milestone in our growth," says Simon Park. "With the full force of Jensen Hughes' global resources behind us, we have never been in a better place to support our clients' needs not just with respect to fire protection engineering and code consulting, but also across the full spectrum of services Jensen Hughes provides, from fire forensics to security risk and emergency management."
