

KLEINFELDER COMPLETES ACQUISITION OF CENTURY ENGINEERING

November 16, 2021

The Kleinfelder Group, Inc., a leading engineering, design, construction management, construction materials inspection and testing, and environmental professional services firm, announced today that it has acquired Century Engineering, Inc. (Century) and all affiliates. The transaction, which closed on November 15, 2021, reinforces Kleinfelder's commitment to improving U.S. infrastructure and strengthens its existing service offerings in the Mid-Atlantic region.

Founded in 1953 and headquartered in Hunt Valley, Maryland, Century provides a full suite of engineering services, including: transportation planning, design, and inspection; information and spatial solutions (GIS); water and environmental resources engineering and permitting; electric and gas utility engineering; land planning and site development engineering; right-of-way and traffic engineering; structural engineering; surveying; mechanical, electrical, and plumbing (MEP) engineering; water/wastewater engineering and design; geotechnical engineering; and landscape architecture.

Century is focused on delivering technical excellence and innovative solutions to its end-user clients, which include Federal, state, and local governments, transportation and DOT agencies, utility providers, universities, healthcare systems, and commercial clients.

"The Century acquisition fortifies Kleinfelder's business in the Mid-Atlantic," said Kleinfelder President and CEO Louis Armstrong. "This transaction aligns with our strategic direction and will accelerate growth across multiple market sectors and technical service lines. Century has decades of project success with portfolio clients, as well as the specialized capabilities that perfectly complement Kleinfelder's service offerings."
