

Landpoint Acquired RJ Engineering & Surveying

January 11, 2021

Cotton Creek Capital is pleased to announce the acquisition of Austin, Texas-based RJ Surveying & Associates, LLC and Randall Jones & Associates Engineering, LLC (collectively, “RJES”), by Landpoint Holdings, LLC (“Landpoint” or the “Company”), a leading geospatial services provider serving a variety of infrastructure end markets. This acquisition enhances Landpoint’s scale, operational density, and service capabilities in the Austin/Round Rock market, one of the fastest growing metropolitan markets in the Country.

The acquisition increases the Company’s locations to ten, provides its customers geographic coverage across all major Texas metropolitan areas, and expands Landpoint’s service capabilities across civil surveying and engineering. Landpoint’s ten operating locations are strategically located in the South Central U.S., enabling the Company to capitalize growing infrastructure demand in the region. The transaction closed in December 2020.
