

LJA Engineering expands services in Florida

February 16, 2022

LJA Engineering, Inc. (LJA) is pleased to announce its further expansion in Florida with the addition of Five Points Design Group (FPDG) and Nancy Debs, PE. With offices in Jacksonville and Tallahassee, and employee-owners throughout the state, LJA brings a local presence to transportation and CEI clients backed by a significant depth of talent from 1300 personnel, 9 sectors, and over 300 services.

Nancy Debs, PE founded FPDG in 2009 with an emphasis on roadway, stormwater, and utility design in Northeast Florida. She has over 30 years of experience working in Florida, Georgia, and other areas throughout the Southeast with FDOT, GDOT, NAVFAC, USACE, NPS, and local cities and counties. Over the past decade, Nancy's work has focused on stormwater feasibility studies, drainage improvements, highway widening, temporary traffic control, and utility coordination for the City of Jacksonville, JEA, and Putnam County.

B.J. Doughty joined LJA Engineering in June 2021 after serving as Communications Director for the Tennessee Department of Transportation for 14 years. In her new role as Business Development Manager, she is focused on strengthening her relationships with clients and building industry partnerships across the southeast.

Zak Vermillion, PE has 16 years of transportation engineering experience with over 10 years working in a Program Management/GEC environment. He has served as Deputy PM, Technical Lead, and Cost Estimating SME on projects worth \$10 Billion in construction contracts.
