

GXT Sells to LJA Engineering, Inc.

December 15, 2020

LJA Engineering, Inc. acquired GXT, LTD. The acquisition closed December 2, 2020.

Founded in 2001, and located in Richardson, Texas, GXT, Ltd. (GXT), is a leading pioneer in telecommunications design and is a project management consulting firm. As a well-known leader in the telecommunications industry, they provide innovative solutions to deploy projects on a timely manner and within budget. GXT's highly decorated team has over 300 years of combined quality telecommunications experience stretching across the U.S. and can execute quality projects within their deadline driven profession. The Company offers both turnkey and individual consulting services as they continue to design sustainable telecommunications infrastructure for their clients. With a growing global telecommunication infrastructure on the horizon, they are committed to creative and effective network development.

LJA Engineering, Inc. (LJA), is an employee-owned, multi-discipline engineering firm with experience in telecommunications and utilities design, as well as right of way acquisition. LJA has 37 offices across Texas, Oklahoma, and Florida, and offers civil, transportation, midstream, rail, structural, electrical, and coastal engineering services, including environmental consultancy and surveying. LJA is ranked #65 in ENR National's Top 500 Design Firm list and was named the 2019 Design Firm of the Year by ENR Texas & Louisiana.
