

## Milrose Consultants announces partnership with SF Codes

*February 24, 2022*

Milrose Consultants is pleased to announce its acquisition of SF Codes, an industry-leading municipal permitting firm based in San Francisco.

SF Codes has grown to be the go-to resource for builders, contractors, and owners of real estate in the San Francisco and Oakland areas. Specializing in new-build projects, SF Codes facilitates the construction of both commercial and residential buildings through its pre-construction development, entitlements, planning, and municipal interface services.

The partnership with SF Codes further expands Milrose's nationwide footprint and provides it with deeper capabilities in San Francisco's Bay Area. The investment is yet another by Milrose to better serve its clients by enhancing its portfolio of services. Previously announced partnerships with Southfield Capital, Permit Advisors, Integrated Group, Special Inspection Services, and McCormick Compliance Consulting similarly advanced Milrose's commitment to be the premier national provider of construction and real estate consulting services.

Dominic Maurillo, CEO of Milrose Consultants, commented, "We're excited that SF Codes has joined the Milrose family of companies. The SF Codes team brings additive capabilities and expertise that our nationwide clientele will immediately find valuable. San Francisco and surrounding cities are key to our strategy, and we're excited to offer our world-class services to our existing and new clients in the Bay Area."

Co-founder of SF Codes, Thad Adcock, added, "This is a very exciting marriage of Milrose and SF Codes. With our intimate knowledge of the Northern California market and Milrose's nationwide reach, it's a partnership that will both deepen and broaden our collective services. All of our clients can benefit from the growing scope and scale of Milrose's offerings."
