

NTM Engineering Acquires Lotus Environmental

March 31, 2022

NTM Engineering, Inc. (NTM) is proud to announce that we have expanded our services by acquiring Lotus Environmental Consulting, LLC (Lotus). Lotus, a women-owned, small business based out of Wayne, PA, brings their full range of environmental consulting expertise to complement NTM's well-established civil engineering services. Lotus specializes in environmental investigations and regulatory compliance services. Lotus employees will now be part of NTM, and any future contracts will be structured under the NTM name.

"Lotus's experience and regional knowledge is an asset to our clients. We are confident that this acquisition will lead to a natural progression of continued services and growth. NTM is excited to have an environmental division, with Kate Farrow leading as Director of Environmental Services. As we celebrate our 15th anniversary, NTM is eager to collaborate with Lotus on opportunities that lie ahead and work together to improve our communities together," stated Donna Newell, MS, PE, CFM, President.

"The combination of NTM and Lotus is a marriage of not only our company's services, but also our cultures. By joining forces, we are certain that our teams will combine to provide an expansion of services and a quality standard of work that both teams are synonymous for providing to our clients," stated Katherine M. Farrow, President and Founder, Lotus.
