

NuEnergen Acquires Environmental Engineering Solutions

January 7, 2021

NuEnergen, a provider of demand response services and energy procurement services, acquired Environmental Engineering Solutions, an environmental compliance consulting services firm. The combined company will focus on enhancing demand response revenue generation along with ensuring environmental compliance.

Owned by Trivest Partners, NuEnergen is an expert in energy management, consulting, and solutions. NuEnergen's suite of solutions and business focuses on demand response, consulting, utility invoice auditing, and smart grid solutions. NuEnergen works with commercial and Industrial clients to service all facets of their energy management needs.
