

## Qualus Power Services Acquires Patterson Power Engineers, LLC

*August 31, 2021*

Cincinnati, OH,—August 31, 2021— Qualus Power Services, LLC, a leading provider of engineering and technical field services to utilities and electric power grid infrastructure, announced that it has acquired Patterson Power Engineering, LLC, a leading engineering firm in the power system protection space with operations in Chattanooga, TN.

“With the Patterson team’s reputation, this partnership enables Qualus to be the leading provider of protection engineering,” said Paul Cody, CEO of Qualus Power Services. “We have set ourselves apart from the competition to become an employer of choice and a full service, power engineering provider. I’m proud to lead such an impressive group of employees who truly care about this company and the impact we have made in this industry.”

Patterson Power Engineers is a highly regarded engineering service firm with an extremely skilled and well-respected workforce. Together, Qualus will have more than 20 field service and engineering offices and nearly 800 employees consisting of expert technical power engineers, project managers, NETA-certified technicians, Protection and Control technicians and a proven leadership team.

“Together, the Patterson team has built a powerhouse of protection engineering and we are excited to continue that growth at Qualus,” said Russell Patterson, P.E., owner of Patterson Power Engineers. “The partnership will provide tremendous opportunities for our employees and will ensure a strong future in providing expert engineering and technical field services to our clients.”
