

RGS Associates and Glackin Thomas Panzak join forces

June 13, 2022

RGS Associates, a leading landscape architecture and civil engineering firm, has acquired Glackin Thomas Panzak (GTP), a Paoli, Pennsylvania-based land planning and landscape architectural firm.

RGS is acquiring an incredible team of landscape architecture professionals who share their belief in the power of design to shape the built environment. The partnership provides clients across Central PA and the Philadelphia region with expanded access to expert land planning, landscape architecture, and civil engineering services.

Lisa Thomas, RLA, AICP, LEED AP; Bernard Panzak, RLA, ASLA, LEED AP; and Chris Garrity, RLA, LEED AP, the Principals of GTP, are joining RGS Associates as Principals. Also joining RGS is a staff of several highly specialized and qualified Landscape Architects and Planners, most with nearly 10+ years of experience and talents complementary to RGS' breadth of services.

The coming together of RGS and GTP is a natural fit for both organizations. RGS, long-known for its design-focused landscape architecture and civil engineering expertise, now has the support of an entire team of landscape architects and land planners, expanding its capabilities and ability to best serve clients.

RGS and GTP also share a similar culture and approach to doing business. At their cores, both firms place a high value on relationships and agree that the relationships they've built with clients, colleagues, and partners are the reasons RGS and GTP have both been in business for 30 years.

RGS and GTP clients will benefit from the expanded capabilities the partnership brings but won't notice much change in the day-to-day operations.

GTP will continue to operate at their current location in Paoli under the respected GTP brand for the foreseeable future while purposefully and systematically transitioning to become a regional office of RGS.
