

## SEVAN ACQUIRES UK-BASED WYETH PROJECTS SERVICES

*September 23, 2020*

DOWNERS GROVE, Ill. — Sevan Multi-Site Solutions, Inc. (Sevan) — a global leader in innovative design, program management, construction services and data analytics — has acquired Wyeth Projects Services Ltd. (Wyeth), a U.K.-based project management services organization serving petroleum, retail and quick-service restaurant clients. The acquisition will add to Sevan's global footprint and expand the company's client portfolio.

"We are thrilled to welcome Wyeth to the Sevan family," said Jim Evans, President and CEO of Sevan. "We look forward to a smooth and seamless transition across our companies, as both Sevan's and Wyeth's core values, culture and business practices are very similar. Additionally, working alongside Wyeth will further expand the trust of key international clients and accelerate our growth."

Wyeth — a U.K.-based project management services firm with 20+ employees — was founded in 2009 with a strong reputation for project delivery in the U.K. and globally. Founder Barry Wyeth has grown the business successfully and sees this acquisition as an opportunity to expand into new markets and sectors.

"I am extremely excited about this next chapter in the Wyeth story," said Barry Wyeth. "Together we will provide greater value to our existing clients and expand our client base into new sectors. We share the same values and ambitions to grow and develop in line with Sevan's vision."
