

Springpoint Structural and Fox + Associates are pleased to announce that we are joining forces!

March 16, 2021

The two firms have been working closely together for the better part of the past year. With a successful partnership in place, Springpoint acquired Fox + Associates at the start of 2021, allowing for a seamless blend of diverse staff and experience to better serve current and new clients in Virginia and the surrounding region.

We are thrilled to have this opportunity to combine while retaining all our current staff at our offices in Charlottesville and Richmond. The team now comprises six structural engineers, two structural/Revit designers, and administrative staff, with experience across a wide variety of new construction, adaptive re-use, and historic preservation..
