Tetra Tech Acquires BlueWater Federal Solutions to Broaden High-End Technology Service Offerings

September 29, 2020

PASADENA, Calif.--(BUSINESS WIRE)-- Tetra Tech, Inc. (NASDAQ: TTEK), a high-end consulting and engineering firm, announced today that it has further expanded its advanced analytics business with the addition of BlueWater Federal Solutions, Inc. (BlueWater), a leading information technology systems and services firm. Based in Chantilly, Virginia, BlueWater has built a high-performing team of more than 350 employees who bring specialized expertise in cybersecurity, mission-critical systems design, and development and operation of federal enterprise systems for U.S. government clients, including the Federal Emergency Management Agency, Department of Energy, and Department of Defense.

"Our ability to integrate high-end technology and analytics in the delivery of customized water, environment, and sustainable infrastructure solutions is a key differentiator for Tetra Tech in the marketplace today," said Dan Batrack, Tetra Tech Chairman and CEO. "The addition of BlueWater builds on our strategy to grow our advanced analytics business with expanded capabilities in artificial intelligence, cybersecurity solutions, and mission-essential services for our U.S. federal customers."

Brian Nault, BlueWater President, said, "Our team is thrilled to join Tetra Tech and work together to expand our capabilities and solutions that solve our clients' most complex problems. By joining with Tetra Tech, BlueWater creates tremendous opportunities for our employees, expands our reach in the federal market through access to key contract vehicles, and increases the technical capacity and access to resources needed for us to deliver on our customers' new and changing requirements."

The terms of the acquisition were not disclosed. BlueWater is joining Tetra Tech's Government Services Group.
