

## **AES (ASSOCIATED ENGINEERS & SURVEYORS) MERGES WITH MSG!**

*February 4, 2020*

Associated Engineers & Surveyors (AES) of Adrian, Michigan has merged with The Mannik & Smith Group, Inc. (MSG). A well-known and respected company, AES has been providing full service land surveying and civil engineering in Lenawee County and Southeast Michigan for over 50 years. MSG President and CEO, Rich Bertz adds "AES's experience and reputation of providing quality professional services to their clients, matches MSG's desire to bring Technical Skill and Creative Spirit to each and every client and project. AES and MSG have provided professional engineering and surveying services to the region independently over the years and moving forward as MSG will bring added services and capabilities to each of the clients that we serve."

Current AES President Kevin Pickford, PS, joins MSG as a Vice President and Shareholder, and will continue to lead daily operations in the Adrian office. Kevin joined AES in 1995 as a surveyor in training and continued his growth to become a partner in 2000 and eventually the President of AES. In addition to Kevin, Jeremy Pickford, PE, Steve Young, PS (past AES President), and all staff will continue in similar capacity at MSG. According to Kevin, "This merger brings depth and expansion of services to our growing customer base. My staff and I are excited and looking forward to our future as part of the MSG vision."
