

Topographic Acquires Brown Civil Engineering

August 3, 2020

We are excited to announce that Brown Engineering has joined Topographic. The merger brings together our group of highly respected engineering, survey, mapping and GIS professionals together with a team of leading site design, municipal and construction administration professionals in our Rocky Mountain region. Together, we will leverage the combined six locations and nearly 300 employees to offer additional services, experience, and expertise to our clients as they pursue to add innovation, efficiency, and quality to their projects.

“Topographic’s strategic plan focuses on expanding our expertise and capacity by growing our internal talent and adding key hires, complemented with expanding markets and services through strategic mergers,” said Topographic CEO Brian Krafft, RPLS. “This merger was the result of an ongoing effort to find a partner to increase Topographic’s commitment to provide clients with a greater range of complementary services.”

Led by CEO Margaret Brown, PE, Brown Civil Engineering is a highly regarded regional civil design firm located in Lafayette, CO. The firm has been a member of the design team responsible for the successful delivery of projects such as Genesee Patrick House Trailhead, Spring Creek Affordable Housing, Aims Community College – Health and Sciences Building, and various other municipal projects.

Echoing the benefit of the merger Brown said, “We at BCE have endeavored to provide the services clients need to be successful. In our recent efforts to grow and expand our services, I came to realize that our firm’s future lies in partnering with the right firm. During our search, we found the right firm for us to merge with – Topographic, Inc. Joining with Topographic allows us to leverage new services and expertise to help our clients improve the built environment and create stronger futures.”

Brown will remain in the role of Civil Group Leader in the Rocky Mountain region and the same group of committed professionals will continue to deliver exceptional service.
