Tetra Tech Acquires Enterprise Automation Expanding Its High-end Digital Water Solutions

October 27, 2021

Tetra Tech, Inc. (NASDAQ: TTEK), a leading provider of high-end consulting and engineering services, announced today that it has acquired Enterprise Automation (EA), an industry leader in digital water transformation consulting services, including control systems integration, automation, advanced data analytics, platform virtualization, and cyber security.

"Tetra Tech leverages digital technology solutions to strengthen cyber security and improve operational efficiency for our clients in the water sector," said Dan Batrack, Tetra Tech Chairman and CEO. "The addition of EA enables us to further expand our high-end digital water consulting practice by adding EA's talented team of digital automation and advanced data analytics consultants."

Josh Riley, EA Co-Founder, said, "We are extremely excited to join Tetra Tech and to execute on our shared vision of providing best-in-class control systems integration services. By joining Tetra Tech, we will expand our client base and geographic reach, while simultaneously providing new opportunities for our employees. We will leverage multidisciplinary teams to provide exceptional and reliable results for every project and support our clients on their digital transformation journeys."

The terms of the acquisition were not disclosed. EA is joining Tetra Tech's Government Services Group.
