

Universal Engineering Sciences strengthens Midwestern footprint by acquiring GSI Engineering in Kansas

December 07, 2021

Universal Engineering Sciences® (UES), a national leading engineering and consulting company specializing in geotechnical engineering, construction materials testing, building code compliance, threshold inspections and environmental consulting, has acquired GSI Engineering (GSI), an environmental, geotechnical, drilling and materials testing firm based in Wichita, Kansas, with additional offices in Topeka and Kansas City as well as Grand Island, Nebraska. GSI's 70-person team serves commercial, institutional, and municipal market clients throughout Kansas and Nebraska as well as Iowa, Missouri, Oklahoma, and South Dakota. Significant recent projects include a 1-million square foot Amazon ICT2 warehouse, Schwan Food Company Facility Expansion, Property Redevelopment and Remediation of Crete Carriers property, and the design, construction, and consolidation of smelter waste at an orphan site for the State of Kansas.

GSI joins Geotechnology in the Midwest Division of UES, led by Ed Alizadeh, PE, JD, who will continue serving as both President of the Midwest Division and CEO of Geotechnology. "GSI is a well-run organization, with great people, environmental capabilities, client relationships and geographically desirable locations," said Ed Alizadeh. "Their highly capable staff complements our team, and together we will achieve our goals to continue to significantly grow the Midwest Division of UES."

GSI Engineering President Chuck Brewer, a Principal Geologist with more than 35 years of industry experience, will continue in his role as President of GSI, reporting to Ed Alizadeh. GSI's existing leadership team will also continue in their roles.

"By joining Universal Engineering Sciences, we now have the ability to serve our existing clients with even greater capabilities as well as new clients across the United States," said Chuck Brewer, PG. "We are excited to join Geotechnology and UES in their pursuit of growth in the Midwest while continuing to grow our market share in Kansas and Nebraska. The expansion opportunities ahead are numerous, and the ability to further our reach allows us to serve our clients at the highest level, while providing challenging and rewarding career paths for our people."

With nearly six decades of experience and recognition as the premier engineering and consulting firm in the geotechnical engineering space, UES is well-positioned to serve the needs of commercial, residential and civic customers across the country. Mergers with GFA International, Inc., NOVA Geotechnical & Inspection Services, Contour Engineering, Wallace-Kuhl & Associates, Construction Testing & Engineering, SUMMIT Engineering, Laboratory & Testing, P.C., GEOServices, LLC, McGinley & Associates, Geotechnology, Inc., Alpha Testing, and now GSI Engineering, have made the Universal Engineering Sciences one of the largest, most resource-rich organizations of its kind nationwide.
