

## KSi Structural Engineers Joins Wallace Design Collective

*April 12, 2022*

We're excited to announce that KSi Structural Engineers has joined Wallace Design Collective, effective April 1, 2022. This teaming brings more depth to our firm and makes additional expertise and new engineering services available for present and future projects.

Founded in 1999 by Kurt Swensson, Ph.D., PE, KSi Structural Engineers is home to 21 talented professionals in Atlanta, Georgia, and Nashville, Tennessee. KSi's core values, "Listen. Create. Deliver.," mesh perfectly with Wallace's core purpose and values. They have amassed a diverse portfolio of experience in market sectors including healthcare, laboratory, commercial, mission-critical, higher education and parking garage projects. "KSi has taken this step forward to increase our team's strength, expertise and depth," Swensson noted. "This step will allow us to add more value to each project we do and make each project we do more successful."

Wallace Design Collective, founded in 1981 by Tom Wallace, PE, SE, as Wallace Engineering • Structural Consultants, works nationally across six offices. Over the last 40 years, we have expanded our service offerings to include civil engineering, structural engineering, landscape architecture, roof consulting, IBC-mandated special inspections, surveying and more. Our staff of 225+, including KSi's team, represents some of the most talented professionals in the nation. Our project experience includes retail, educational, commercial, industrial, healthcare and forensic projects. "We are thrilled to add KSi's team to ours," said Tom Hendrick, PE, Chief Executive Officer of Wallace Design Collective. "Our core purpose as a firm is to 'make lives better.' This alliance allows us to touch more lives, strengthen our Atlanta presence and enter the Nashville market, which has had phenomenal growth over the last decade."

The KSi team will continue to operate as KSi Structural Engineers as we make this transition. You'll still have the same contacts and work with the team you know. As we move forward together, KSi team members will become members of the Wallace team. They will continue servicing current projects for KSi while pursuing new opportunities with Wallace.

Please join us in welcoming KSi Structural Engineers to Wallace Design Collective. For more information on KSi, please visit [ksise.com](https://ksise.com). We're excited to make Wallace an even better partner for our clients and the best place to work for our employees.
