

WithersRavenel acquires Lumberton engineering firm Koonce, Noble & Associates, Inc.

December 03, 2021

WithersRavenel is pleased to announce our acquisition of Koonce, Noble & Associates, Inc. (KNA) of Lumberton.

KNA is a predominantly civil and utilities engineering firm, with clients in the public and private sectors. The addition of KNA to the WithersRavenel team will help expand our footprint in the Lumberton area, where our work activity has been continuously growing. By establishing a firmer foothold in this area, WithersRavenel can better serve our existing clients from closer proximity while also continuing to grow our business via KNA's clients.

Also, the addition of KNA's employees brings decades of technical experience in Lumberton and the surrounding area, particularly in water and sewer treatment and conveyance.

"We are very excited to have the Koonce Noble team join us," WithersRavenel President and CEO Jim Canfield said. "Founded in 1967, they have provided engineering services and expertise to clients for over 54 years. We look forward to faithfully serving their clients in southeastern North Carolina and their platform will allow us to better manage and direct our future growth opportunities in an everchanging world."
