

Exacta Land Surveyors Partners with H&H Survey Consultants

July 18, 2022

Exacta Land Surveyors, LLC (“Exacta”), a portfolio company of Summit Park, is pleased to announce that it has completed the acquisition of H&H Survey Consultants, LLC (“H&H”), a provider of residential and commercial survey services throughout the state of Florida. The acquisition was performed in partnership with H&H’s founders, Faun Hoffmeier and Dusty Holloway.

Founded in 2009, H&H provides a growing number of national and regional homebuilder clients with survey services required during the construction of new single family homes. H&H also provides ALTA survey and construction staking services to commercial clients. H&H represents Exacta’s third acquisition during Summit Park’s ownership.

Exacta, headquartered in Cleveland, Ohio, is the nation’s largest provider of land surveys and field management services focused on facilitating the selling and development of residential real estate. Exacta’s clients include title insurance companies, attorneys, homebuilders, real estate agents, lenders, and real estate developers. The company operates under the Exacta, Windrose, and Landmark brands and serves clients in Ohio, Florida, Texas, Illinois, Maryland, and Virginia.

Faun Hoffmeier, Co-founder of H&H, said, “We are excited to partner with Exacta and Summit Park to continue to grow H&H’s presence throughout Florida. Since founding our business in 2009, Dusty and I have focused on providing customers with reliable and timely service, and we believe our partnership with the Exacta team and their existing resources in our area will allow us to continue that mission at an even greater scale.”
