

Tetra Tech Expands Digital Water and Energy Practices with the Acquisition of TIGA

July 7, 2022

Tetra Tech, Inc. (NASDAQ: TTEK), a leading provider of high-end consulting and engineering services, announced today that it has expanded its digital water practice with the acquisition of The Integration Group of Americas (TIGA), an industry leader in process automation and systems integration solutions, including customized software and platform (SaaS/PaaS) applications, advanced data analytics, cloud data integration, and platform virtualization. TIGA expands the company's digital water practice with industry-leading software engineers, digital automation integrators and advanced data analytics consultants.

"Tetra Tech uses our Leading with Science® approach and the suite of Tetra Tech Delta technologies to provide digital solutions for our clients that generate value by leveraging data analytics and systems integration," said Dan Batrack, Tetra Tech Chairman and CEO. "The addition of TIGA enables us to further expand our high-end digital consulting and platform solutions across water, environmental, and energy sectors."

John Miller, TIGA President, said, "Solving complex challenges related to water, energy, and sustainable infrastructure by leveraging data analytics is a critical need for our clients. By joining Tetra Tech, we will provide industry-leading control system integration and digital transformation services to an expanded client base while simultaneously providing new opportunities for our employees."

The terms of the acquisition were not disclosed. TIGA is joining Tetra Tech's Government Services Group.
