

## **WGI Acquires Alabama-based The Atlantic Group, LLC**

*July 11, 2022*

WGI, Inc. Acquires Alabama-based The Atlantic Group, LLC, Adding Strength and New Services in the Geospatial Aerial Mapping, Remote Sensing, and Photogrammetry Markets

National planning, geospatial, and engineering design firm WGI, Inc. (WGI) is pleased to announce the acquisition of Huntsville, Alabama-based The Atlantic Group, LLC (Atlantic), a national geospatial data, remote sensing, photogrammetry, and land surveying consulting firm providing aerial LiDAR, Geographic Information Systems (GIS), and mapping services to federal, state, and local agencies, as well as private sector clients. Atlantic, effective July 1, 2022, is a wholly-owned subsidiary of WGI, operating under the trade name WGI Geospatial.

WGI maintains a commitment to strategic growth, investment, and use of technology and innovation to serve clients' geospatial programs and projects. By adding Atlantic's Teledyne Optech G2 LiDAR sensors, WGI is one of only four firms in the world with this technology.

Atlantic also brings multiple Teledyne Optech T-2000s, multiple PhaseOne camera systems, and substantial IT processing infrastructure to WGI's existing data-collection systems. United with WGI's extensive survey capabilities, the combined team provides one of the largest and most comprehensive geospatial offerings in the profession.

Atlantic's acquisition helps facilitate WGI's strategic growth in the federal market. Brian Mayfield, CP, GISP, SP, GIS will serve as a key leader in his role as Vice President of Remote Sensing and Operations. Bob Hanson, GISP has been appointed the subsidiary's President. Atlantic's existing clients will continue working seamlessly with the same professionals, providing them exceptional service.
