

## **Texas-based 4Ward Land Surveying adds Delta Survey Group to Strengthen Operations in Austin**

*September 29, 2022*

4Ward Land Surveying, a member firm of The HFW Companies, is excited to announce the acquisition of Delta Survey Group into their Austin, TX operations. 4Ward Land Surveying, a fast-growing company, provides professional surveying services throughout Texas for commercial, residential, and public works projects. With the addition of Delta to its operations, 4Ward continues accelerating its strategic growth plan.

Delta, founded in 2000 by John Brautigam, RPLS, provides survey support services for boundary, control, engineering design, topographic, aerial, and all survey support services for development and infrastructure. “I have decided to join Beth and Jason Ward of 4Ward Land Surveying as they share the values that I built Delta on, including delivering quality work with excellent customer service,” said John Brautigam.

“We welcome John’s depth of knowledge and experience to 4Ward,” said Jason Ward, RPLS. “He has been surveying land in the Austin area since 1983”. “He and his crews bring experience with TxDOT and other governmental entities, land development projects, and GIS projects.”
