

## Keith Engineering Design, Inc. acquires Midwest Engineering Professionals

*October 26, 2022*

We are excited to announce that Keith Engineering Design, Inc. (KED) has acquired Midwest Engineering Professionals (MEP).

“This partnership brings additional experienced personnel, thereby strengthening our firm capabilities,” said Brian Keith, KED President. “We are committed to continuing our core values of providing exceptional customer service through individualized client attention and responsive communication.”

With this, Keith Engineering Design, Inc. welcomes three new team members with over 84 years of combined experience:

Ryan Holmes, PE

Senior Mechanical Engineer

Ryan brings 36 years of engineering experience, having held roles as a project engineer, project manager, senior mechanical engineer, and president/founder of MEP.

Curtis Teutsch, PE

Senior Electrical Engineer

Curtis Teutsch has 28 years of experience as an electrical engineer, bringing a wealth of knowledge and real-world experience to the team, having held roles as a project engineer, senior electrical engineer, and project manager.

Luke Knapp, PE LEED GA

Senior Mechanical Engineer

Luke Knapp has 17 years of experience as a mechanical engineer at MEP, as well as prior experience in Mechanical Engineering. He has held roles as a senior mechanical engineer, project engineer, and project manager. Luke has been involved in the ASHRAE Organization for 17 years.
