

## **Shannon & Wilson is pleased to announce its acquisition of Concord, California-based Hultgren-Tillis Engineers**

*October 1, 2022*

As of October 1, 2022, Hultgren-Tillis will join Shannon & Wilson, a prestigious 68-year-old geotechnical and environmental consulting firm with a reputation for excellence in the transportation, water resources, industrial, and federal sectors.

“With its strong technical capabilities and similar commitment to high-quality service, we are thrilled to fold Hultgren-Tillis Engineers into the Shannon & Wilson family,” said Greg Fischer, Shannon & Wilson president. “We are confident our combined talents and shared philosophies will enhance our capability to serve our clients throughout northern California and beyond.”

“We are excited to unite with Shannon & Wilson to continue to serve our clients throughout the San Francisco Bay and Sacramento areas,” said Kevin Tillis, president of Hultgren-Tillis Engineers.

“Shannon & Wilson is an exceptional company and an industry leader. It is our privilege to join a company that shares our culture of technical excellence.”

This acquisition is a key component in Shannon & Wilson’s continued nationwide growth and expansion. With a combined staff of nearly 20 professionals, Shannon & Wilson’s northern California operations will be a formidable resource to Shannon & Wilson’s current and future clients.
