

## Ci Design Acquires Fishbrook Design Studio

*November 15, 2022*

Ci Design is pleased to announce the recent acquisition of Fishbrook Design Studio. Founded in 2004 under the direction and leadership of Matthew E. Juros, RA, Fishbrook boasts an impressive array of projects in both the commercial and life science sectors. The design studio, located in Haverhill, MA, weaves artistry and functionality into every project with the goal of creating unique and memorable spaces. Ci has had the pleasure of a long working relationship with the Fishbrook team and is looking forward to working together even more in this next chapter.

“Fishbrook and Ci share a commitment to quality and collaboration. Their practice groups, projects, and skills seamlessly integrate with those at Ci Design, and we are excited to have them on board,” said Christopher Ladd, Ci’s co-founder, and Vice President.

Specifically, Fishbrook and Ci collaborated on a pair of life science buildings. Fishbrook was the architect of record for the base building of this 11-story, 390,000SF, LEED Certified laboratory building. Ci acted as the experts on interior laboratory and office fit outs. The project includes amenity spaces such as a café/bistro, conference resource center, climbing wall and fitness center, and wellness rooms. This project has been approved by the Planning and Zoning Commission and we are looking forward to seeing the entirety of this project through construction at Ci Design.

“Ci has grown at an extraordinary rate over the last few years. We are thrilled to welcome the immense talent and experience that Matt Juros brings to the table,” said John Larsen, AIA, NCARB, co-founder and President of Ci Design.
