Thompson Holdings Acquires Meyer Engineers

Natick, MA (December 6, 2022) – Thompson Holdings (Thompson), a family of companies providing engineering, architecture, and disaster response solutions, acquired Meyer Engineers.

Meyer Engineers specializes in architecture, engineering, construction management, and construction engineering and inspection services to clients in the federal, transportation, industrial, and municipal markets. Established in 1965, its 60 employees share the same core values as Thompson companies and focus on innovative, quality solutions to solve its clients' needs.

"Increasing Thompson's Louisiana and Texas footprint is a key point in our strategic growth plan," said John Baker, Chairman of Thompson. "Meyer Engineers has a long and respected history of excellence in the New Orleans area and will be a valued partner in our westward expansion." The Thompson companies currently offer services in eight Southeastern states.

"Thompson and Meyer have a lot in common, most importantly a longtime commitment to excellent client service," said Rick Meyer, who will continue in his role as President of Meyer Engineers. "This next step in Meyer's evolution allows us to expand and diversify the services we offer. Meyer employees will also benefit from the support Thompson provides as an employee-owned company."

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised Thompson.
