

WE'RE TEAMING UP

January 1, 2023

GWA, Inc. and MECA, Inc. are pleased to announce our merger effective January 1st, 2023. We believe this will enable us to better serve our clients, support our employees, and move into the future with a strong foundation.

We will continue to support existing clients as we always have; however, by offering our services both individually and combined, we allow greater flexibility to meet client and project needs.

We will continue to maintain both of our offices, and all contact information remains the same.
