

TRANT CORPORATION (TRANT) IS PLEASED TO ANNOUNCE ITS MERGER WITH NIRA CONSULTING ENGINEERS (NIRA)

January 1, 2021

This is an exciting time for TRANT and NIRA. The NIRA-TRANT merger will allow for the TRANT division to provide architecture, MEP, and structural engineering services. We will now be able to take your project from “concept to keys to the door.”

TRANT will continue to supply the same professional services, Residential and Commercial Land Development, Land Surveys, and Traffic Engineering, it has been providing for over 55 years. NIRA will continue to provide Architecture, Civil Engineering, Environmental Engineering, Structural Engineering, Electrical Engineering, Mechanical Engineering, and Site Planning Disciplines which it has been providing to its clients since 1975.

This merger will allow a continuity in services to go uninterrupted. And with an increased staff, an increased workload can be readily accommodated.
