

## **NV5 Acquires Bromley Cook Engineering, Strengthens Forensics Engineering and Florida Storm Hardening Services**

*January 31, 2023*

NV5 Global, Inc. (the “Company” or “NV5”) (Nasdaq: NVEE), a provider of technology, conformity assessment, and consulting solutions, announced today that it has acquired Bromley Cook Engineering (Bromley Cook), a leading provider of forensics, specialty structural engineering, and waterproofing to support facilities and infrastructure throughout Florida. Headquartered in Fort Lauderdale, Bromley Cook’s engineers and inspectors have worked on the design, renovation, and preservation of some of the state’s most prestigious projects. The acquisition was made with a combination of cash and stock and will be immediately accretive to NV5’s earnings.

Bromley Cook specializes in the restoration of concrete and structural building components, expert witness services for construction litigation, and the design of resilient mission critical facilities intended to remain fully serviceable after a major hurricane. As a leader in hurricane hardening, Bromley Cook excels in the design of facades, window and glazing systems, and building systems to withstand storm events.

“Florida’s wind, heat, humidity, and hurricane exposure create challenging conditions for the built environment, and facility owners rely on specialized structural engineering to design and preserve resilient buildings,” said Dickerson Wright, PE, Chairman and CEO of NV5. “Bromley Cook’s decades of experience in the Florida market make it uniquely qualified to identify construction defects, design durable structures, and deliver sustainable building solutions that will stand the test of time.”
