

Apex Companies, LLC Acquires Water Science Associates

March 8, 2023

Apex Companies, LLC (Apex), a national leader in environmental consulting and engineering services, today announced the acquisition of Water Science Associates, a regional provider in water resources and hydrogeology.

Based in Fort Myers, Florida, and serving clients throughout the state, Water Science Associates brings a team of experienced hydrogeologists, engineers, and scientists who specialize in water resource planning and evaluation, water supply development, and wastewater management. Founded in 2013, the firm is known for its expertise in hydrogeology, including integrated surface and groundwater systems and supply and disposal well systems, as well as the regulations and issues that impact water resource management and development.

“We are excited to be joining a firm whose capabilities and services are complementary to our own, where we can also expand our influence to solve some of the most pressing water resource challenges of today,” said Water Science Associates Co-Founder and President, Kirk Martin. “Apex and Water Science Associates both believe in a strong client-focus and are dedicated to technical excellence. A future with Apex provides exciting opportunities for our staff and for our clients whose needs are ever expanding.”

Mr. Martin will remain with the firm and work hand in hand with Apex leadership on integration and future expansion of the business.

“Water Science Associates’ expertise and capabilities in water resources align perfectly with our growth priorities across water and in the highly attractive Florida market,” said Apex President and CEO, David Fabianski. “Kirk and his team bring a wealth of knowledge and experience, as well as shared values and a strong people-oriented culture. We look forward to welcoming them to Apex.”
