

Exacta Land Surveyors Completes Acquisition of Snider & Associates

February 27, 2023

Exacta Land Surveyors (“Exacta”), a portfolio company of Summit Park, is pleased to announce that it has completed the acquisition of Snider & Associates (“Snider” or the “Company”), a provider of residential surveying services operating throughout the greater Maryland and Washington, D.C. area.

Headquartered in Germantown, Maryland, Snider provides boundary, topographic and ALTA surveys supporting both new and existing residential property transactions. Snider represents Exacta’s fourth acquisition during Summit Park’s ownership.

Exacta, headquartered in Cleveland, Ohio, is the nation’s largest provider of land surveys and field management services focused on facilitating the selling and development of residential real estate. Exacta’s clients include title insurance companies, attorneys, homebuilders, real estate agents, lenders, and real estate developers. The company serves clients in Ohio, Florida, Texas, Illinois, Maryland, Virginia, and Washington, D.C.

Hank Mullany, President and CEO of Exacta, said, “We are excited to partner with the Snider & Associates team to further our penetration in the Maryland and Washington D.C. markets. Ed Snider has built a tremendous business with heritage dating back to 1966, and we are excited to incorporate their expertise across residential, builder, and commercial markets into the Exacta family.”

Alex Sarkisian, Vice President at Summit Park, added, “Snider & Associates has established an incredibly strong reputation through decades of reliable service to customers across the greater Montgomery County area. We believe the pairing with Exacta’s platform is a natural fit and we are excited to leverage the combined business to extend both our geographic reach and portfolio of services.”
