

## **WOODPATEL is pleased to announce the acquisition of Geomatics Consulting Group, Inc.**

*February 27, 2023*

GCG has been a leader in advanced surveying and mapping services for over a decade. Founded in 2006, they have provided high-quality work for private sector businesses, power companies, and the government from the local to the federal level specializing in delivering detailed finished products.

“The joining of Geomatics Consulting Group and WOODPATEL further advances our commitment to leading innovative solutions through technology for our clients,” said President, Michael Young of WOODPATEL. “Geomatics is a highly respected firm that specializes in land subsidence and deformation monitoring, power transmission corridors, and Unmanned Aerial Vehicles (UAV) mapping.”

Ron Barbala, President of Geomatics Consulting, has over 30 years of experience and is recognized as an expert on land surveying strategies throughout the Western United States as well as a Certified Federal Surveyor (CFED), qualified to work on federal interest land.

“Ron Barbala and his team are recognized as leaders in our industry,” said Gabe Rios, Principal Land Surveyor for WOODPATEL. “We are delighted to have Ron and his team of experts join WOODPATEL.”

Ron Barbala expressed, “Geomatics is thrilled to be joining WOODPATEL, where our team can add to the firm’s depth of expertise and collaborate to help better serve our clients.”

Since 1984, WOODPATEL has left its mark on Arizona’s most significant projects. WOODPATEL is powered by the most elite engineers, and surveyors in the state who are consumed to meet their client’s expectations through adaptive solutions, their expertise in various fields, and creating exceptional client experience.

We are honored to have been ranked as the #1 civil engineering firm by Ranking Arizona for 20 consecutive years running. We have also been named by the Zweig Group as a “Hot Firm” making us one of the fastest-growing AEC firms in the United States.
