

## Vierbicher Merges with Mau

*April 03, 2023*

Vierbicher, a privately-owned multi-disciplined consulting firm headquartered in Reedsburg, Wisconsin, announced that it has merged with Mau & Associates, LLP (Mau), a privately-owned civil engineering and land surveying company headquartered in Green Bay, Wisconsin. The business combination went into effect on March 31, 2023.

Joining together, our teams can better execute our long-term strategic vision of providing our clients with increased service offerings in additional geographic locations. As a result of this merger, we are positioned to provide civil engineering, planning, and land surveying throughout Wisconsin. Both firms will benefit from an expanded presence in Wisconsin, as well as the addition of professional talent and local expertise.

“Creating this partnership makes perfect sense.” says Rodney Zubella, CEO of Vierbicher. “After getting to know Mau staff, we knew right away our cultures were well-aligned. Mau brings with them an impressive reputation in northeast Wisconsin. We look forward to providing our clients with the same high level of customer-focused service that they have come to expect as we expand our services to this growing market.”

Vierbicher, combined with Mau, will have offices in Madison, Reedsburg, Milwaukee, Prairie du Chien, and Green Bay. We will continue to deliver creative, yet proven and responsible solutions by applying the collaborative vision and expertise of our engineering, planning, and community development team.
