

Kleingers, a Top Midwestern Engineering Group, Enters Tampa/St. Petersburg Market

April 04, 2023

The Kleingers Group announced that it has opened a Tampa/St. Petersburg, Florida office serving clients throughout West Central Florida. Recently joining forces with Leftcoast Surveyors, Inc., of St. Petersburg, the new Kleingers office will provide the full array of Kleingers' integrated survey, engineering, and design services. Along with its TrueScan 3D laser scanning and reality capture division, this marks The Kleingers Group's second Florida location.

Mike Guiler, owner of Leftcoast Surveyors, said of the opportunity, "I was looking for another company that shared our firm's core values and work ethic, and once I started researching, The Kleingers Group became the ONLY choice. I launched this business over 20 years ago, and we've worked really hard and been quite successful, so I needed to be absolutely confident in who we joined."

Leftcoast Surveyors, Inc. is a construction surveying company founded in 2000 out of St. Petersburg, Florida, with one location. Its teams of professional surveyors have the expertise and technology to handle their clients' most challenging projects. Leftcoast teams are dedicated to accurate, timely, and cost-effective survey solutions. Providing boundary surveys, topographical mapping, construction staking and more, Leftcoast Surveyors pride themselves in client commitment and satisfaction, ensuring that each project's unique needs and goals are met.

Unique, Integrated Projects Are Kleingers' Specialty

Tim Casto, CEO of The Kleingers Group agrees, "This is an excellent opportunity for both The Kleingers Group and Leftcoast Surveyors. From the first time we spoke, it was apparent that Mike's firm was a great fit for The Kleingers Group in both expertise and core values. With the Tampa/St. Petersburg market being so dynamic, we couldn't be happier to welcome to Leftcoast Surveyors to the Kleingers family."
