

Maple Engineering Joins Barton Associates, Inc.!

May 5, 2023

Barton Associates, Inc. announces that Maple Engineering, PLLC., a 17-person engineering firm in Raleigh, NC, has joined Barton Associates, Inc. The acquisition expands Barton Associates' reach in the South Atlantic Region and strengthens design capabilities in the multi-family housing and mixed-use markets. Maple Engineering will operate as Maple Engineering, a Division of Barton Associates, Inc.

"The acquisition is an integral part of Barton Associates' long-term strategic growth plan, and our firms have very similar values," explained Michael Rader, PE, President, and CEO of Barton. "Both companies are committed to serving our clients, communities, and employees. We will continue to be a trusted leader in providing innovative, cost-effective, and sustainable design solutions. We look forward to working together as one team to Make Buildings Work."

"The path forward has always been about doing right by our core principles, our staff, and our clients," says Zack Tomlin, PE, the Principal, Founder of Maple Engineering, PLLC. "Becoming a part of Barton Associates allows us to continue on that same trajectory with greater capabilities, resources and experience." Zack will now serve as the Director of Operations in Raleigh for Barton Associates, Inc.

About Barton Associates, Inc.

Barton Associates, Inc., an employee-owned company, is a consulting engineering firm providing mechanical, electrical, plumbing, fire protection, and architectural lighting design services. Our offices in York, State College, and Pittsburgh are home to nearly 80 employee-owners ready to provide high-quality services to our clients across the Eastern United States. Our firm specializes in the education and healthcare markets and serves other markets such as senior living, corporate/workplace, cultural, libraries, municipal and sports & recreation.
