

## **Boulder Associates and SABArchitects, Inc. are joining forces!**

*May 17, 2023*

As of June 1st, Seattle-based architecture firm SABA will join BA as we expand beyond healthcare and into the Pacific Northwest. We are thrilled to move forward into the future together, adding SABA's wealth of expertise in science + technology, workplace, education, and more to BA's design quiver – and bringing our 40 years of experience in healthcare and senior living design to their market in the Pacific Northwest. Our two firms share not only the spirit of design excellence and client service, but a commitment to a firm culture that puts employees first. We can't wait to share more about SABA and why we're over the moon about this new partnership!
