Javan Engineering Joins CHA

Natick, MA (May 4, 2023) – Javan Engineering, a full-service engineering firm serving the industrial, chemical, pharmaceutical, biotech, healthcare, and university markets, joined full-service engineering consulting firm CHA. Javan Engineering is based in greater Philadelphia, PA, with 200 employees.

Javan's core engineering services include process, electrical, instrumentation & controls, automation reliability, process safety management (PSM), asset management, equipment maintenance, and project management services. The firm has offices in Fort Washington and Lansdale, PA, as well as Raleigh, NC.

"Javan Engineering is a significant and exciting addition that provides an expanded platform for CHA to offer best-in-class multi-discipline engineering services, project management and asset management capabilities, positioning us for strategic growth in key advanced manufacturing markets," said Jim Stephenson, CEO of CHA Holdings.

Javan Engineering CEO Moses Javan said, "We are passionate about our work and differentiate ourselves with deep expertise, while being responsive to our clients' needs. Our growth and performance have excelled because of our long-tenured trusted relationships with blue-chip clients. CHA is a great cultural and strategic fit for Javan. The long history of exceptional client retention, service, and innovation makes the joining of our firms a natural match, benefiting both our clients and employees. We have significant opportunities ahead as we expand our offerings with the collaboration of our two talented teams. We are very much looking forward to continuing to serve our clients safely and with the greater capabilities of our two firms."

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised Javan Engineering.

About Morrissey Goodale:

Morrissey Goodale has helped hundreds of clients transform and grow their architecture, engineering, and environmental consulting companies into high-level performers through strategic business planning, mergers and acquisition advisory, valuation and ownership transition, market research, marketing and business development, leadership training and development, Lean Operation Strategies, organizational development and management, virtual reality solutions, and executive search. Morrissey Goodale's team of M&A consultants assist throughout the M&A process, from preparing firms for a transaction to a successful integration.

Morrissey Goodale's extensive network of relationships with AE industry decision-makers around the globe uniquely qualifies the firm to identify the right buyers or sellers and guide AE firms through the complex merger or acquisition process, from conception to close.
