

## WK Dickson completes the acquisition of Eden & Associates

*June 7, 2023*

WK Dickson has completed the acquisition of Virginia-based Eden & Associates, with offices in Blacksburg and Martinsville. The two companies have long been recognized leaders in the AEC industry, and the acquisition will allow for greater efficiencies, broader capabilities, and a wider geographic reach for the combined company.

“We are thrilled to welcome the talented professionals from Eden & Associates to our team,” said David Pond, PE, WK Dickson’s President & CEO. “This acquisition allows us to expand our reach and better serve our clients while leveraging the expertise and capabilities of both companies to enhance the quality and scope of our services. We are excited to grow our engineering business in the Virginia market significantly.”

WK Dickson has a proven track record of providing comprehensive and innovative solutions to clients across a range of expertise, including aviation, land development, water resources, and energy. The acquisition of Eden & Associates will allow for the expansion of the company’s expertise in areas such as transportation, water resources, and environmental engineering.

“Joining forces with WK Dickson is a natural fit for us,” said Jamie Peck, PE, President of Eden & Associates. “Our teams share a commitment to excellence, and by combining our talents, we can offer our clients even more comprehensive solutions. This acquisition is an exciting step forward in our continued growth and success, and our company cultures are perfectly aligned.”
