

Universal Engineering Sciences Acquires Geotechnology Inc., Establishing A Strong Midwest Presence

July 8, 2021

Universal Engineering Sciences® (UES), a national leading engineering and consulting company specializing in geotechnical engineering, construction materials testing, building code compliance, threshold inspections and environmental consulting, has acquired Geotechnology, Inc., a leading provider of consulting services in applied earth and environmental sciences; exploration; geotechnical engineering; underground consulting services; soils, rock, and construction materials testing; non-destructive testing; special inspections; geophysics and deep foundation testing in the Midwest and Midsouth regions. The Geotechnology family of firms has been part of thousands of major construction projects, with nearly 300 team members and 10 locations in Missouri, Illinois, Kansas, Ohio, Kentucky, Tennessee, Mississippi and Arkansas.

Geotechnology's Ed Alizadeh, a 32-year veteran of the business, will serve as UES President of the Midwest Division. Pat Donovan will continue as President of Geotechnology, LLC overseeing geotechnical, environmental and materials testing services. Jim Howe will continue as President of Geotechnology Exploration, LLC overseeing exploration services throughout the Midwest Division.

"We are incredibly excited about the potential this partnership unlocks for us in the years to come," said Ed Alizadeh, Geotechnology CEO and new UES President of the Midwest Division. "We share a common vision of our culture, growth, teamwork and opportunity with UES. We believe we can provide greater impact and better service to our clients and more opportunity for our employees through this partnership. Joining the UES family is an incredible milestone for our business, and a testament to the outstanding team we have assembled, the business that we have run, and the high regard our firm enjoys in the industry from our clients."

With nearly six decades of experience and recognition as the premier engineering and consulting firm in the geotechnical engineering space, UES is well-positioned to serve the needs of commercial, residential and civic customers across the country. Recent mergers with GFA International, Inc., NOVA Geotechnical & Inspection Services, Contour Engineering, Wallace-Kuhl & Associates, Construction Testing & Engineering, SUMMIT Engineering, Laboratory & Testing, P.C., GEOServices, LLC, and McGinley & Associates have made UES one of the largest, most resource-rich organizations of its kind nationwide.
